Hi Richard,

Here is the report that I was referring to which has a summary of the data collected in the Fall of 2016.

Thanks,

Toby

Toby,

Before we discuss the 2017 data, I want to be sure about the 2016 summary DO data that you referred to in your email. At the Mt. Hope Bay/Taunton River Estuary Monitoring Strategy meeting on Feb 1st, I gave a presentation on the buoy data that included a table summarizing the 2016 data with respect to different DO thresholds. Are you referring to this summary?

You should have received an email from Becky Weidman on 2/14 with the MHB/Taunton meeting presentations. My presentation also included plots showing raw DO data from 2017. If you are looking for a 2017 summary DO table similar to the one I presented for 2016, we have not prepared that table yet. If you were referring to another summary, please let me know.

Thanks,

Subject: DO data

Hi Kim and Richard,

Is there a summary of the data that was collected last summer from the Mt. Hope buoys for DO? I've seen the summary of data that was collected from the Fall of 2016 and was wondering if there was something similar from last summer.

Thanks,

Toby
